Blockchain Based Stablecoin

Paysend

I proposed and developed a new stablecoin concept backed by IMF Special Drawing Rights. I researched the model, built prototypes, and secured key partnerships. I delivered a whitepaper, website, and other systems to launch the concept, validating the idea and gaining top-tier interest through comprehensive research, strategy, and execution."

Zach Garman
Co-Founder & CPO at DolarApp

Will and I worked together on a proposition design engagement where Will led the UX/UI development effort for a internal platform at a Global Bank. Will exceeded expectations in an extremely difficult environment, meeting tight deadlines with vague information given by extremely demanding stakeholders. Will impressed with his patience, vision, and ability to execute with minimal oversight and
